

At Contractors of Colorado, we're more than just a support network — we're a central hub for contractor education, marketing, and professional growth. Built specifically for Colorado contractors, our mission is to help you grow your business, strengthen industry connections, and stay ahead in a fast-changing market.

B License Exam Prep – Summer 2025

Become a Licensed Commercial General Contractor – Pass Your Exam with Confidence!

Our intensive General Contractors Exam Prep Course is designed to prepare you for the **National Standard Building Contractor "B" ICC G12 Exam** through Pearson VUE, providing you with the tools, knowledge, and personalized support you need to succeed.

Two-Part Course Format

Colorado B License General Contractor Course – Redesigned for Real-World Success

The **National Standard Building Contractor "B" ICC G12 Exam** is one of the most comprehensive licensing exams in the construction industry — covering both residential and commercial building knowledge, codes, and field-tested expertise.

To help you master the material without being overwhelmed, we've redesigned the course into **two focused phases**. This format makes the learning more flexible, practical, and tailored to your success — allowing you to absorb foundational knowledge first, then level up with advanced topics after a short break.

Course Structure

Part 1: Residential Focus (Weeks 1–4) **IN-PERSON LEARNING**

- Build a solid foundation in residential general contracting — the same curriculum offered in our standalone Residential GC Course.
- Nearly half of the B License Exam covers residential code, so this is critical to your success!

Optional Break: You can roll right into Part 2 or take a full month off & rejoin at the start of the next month.

Part 2: Commercial & Advanced Topics (Weeks 5–8) **VIRTUAL LEARNING**

- Part 2 transitions to a live online format, led in real-time by our Course Instructor.
- Allowing you to come back recharged and ready to tackle more complex material, including commercial construction methods, licensing exam prep, and real-world strategies to help you succeed as a B License General Contractor.

At Contractors of Colorado, we're more than just a support network — we're a central hub for contractor education, marketing, and professional growth. Built specifically for Colorado contractors, our mission is to help you grow your business, strengthen industry connections, and stay ahead in a fast-changing market.

What's Included in the Course

Hands-On Learning: Interactive, in-person classes over **(4)** Saturdays + an additional **(4)** Week Virtual Learning Session + plus optional Instructor Office Hours

Code Books Provided:

You'll receive all **(3)** required exam editions at no extra cost: These are the exact editions tested on Colorado's B License General Contractor exam. While some municipalities and jurisdictions may be adopting newer code versions, **the licensing exam is still based specifically on these editions.**

- 2018 IRC
- 2018 IBC
- 2021 Concrete Manual

Comprehensive Online Knowledge Portal:

24/7 access to on-demand resources including a Course Introduction and structured Learning Modules to reinforce classroom instruction.

Weekly Practice Exams & Quizzes:

Regular assessments help track your progress and boost exam readiness.

Networking & Mentorship: Join a community of growth-minded contractors and get guidance from an instructor with decades of real-world experience.

Who It's For & Why It Matters

This is **an intensive, no-fluff course** built for serious contractors preparing for the Class B license exam— known for its difficulty and depth. Ideal for those in light commercial and residential construction, the program is led by seasoned pros with hands-on ICC code and testing experience. **You'll get focused instruction, strategic test prep, and the confidence to tackle one of Colorado's toughest licensing hurdles head-on.**

At Contractors of Colorado, we're more than just a support network — we're a central hub for contractor education, marketing, and professional growth. What Our Students Are Saying

"I can't say thank you enough for your amazing teaching and support. I could never have done this without your investment. The class materials, quizzes, and practice exams were key! And yes, one needs to put in the work."

— Tom, Spring 2025 Student

"Thanks to Andrew and his exam prep course, I passed my B License test today!"

— Ron, Spring 2025 Student

"Thanks to you guys, the test was stress-free and very easy to navigate!"

— Ivan, Spring 2025 Student

"Thank you, Andrew! You guys really kicked me in the butt to get it done!"

— Page, Spring 2025 Student
